

Oral Health Story Kits for Home Visitors: Resources and Strategies for Talking about Teeth with Families

This session provides an overview of the **Oral Health Story Kit for Home Visitors**, a self-contained, self-sustaining tool-kit with helpful resources developed by the PA Chapter of the American Academy of Pediatrics specifically for Home Visitors. This **Oral Health Story Kit** is used to inform and educate children, parents, grandparents, and families about the importance of oral health to overall health and well-being. This session offers guidance to Home Visitors on how to engage families in positive conversations about adopting good oral health habits. Participants will learn why taking care of your mouth is important and how this content is easily integrated into your daily work with families. This session offers opportunities for group interaction, sharing of ideas and key strategies to launch an effective implementation process for Home Visitors.
